Robin, IIRC you compiled Brad's organize tool on Windows before. Was that a 32bit build? If so and you still have the required (static) boost libraries, could you please send them to me?

```
$ cat contrib/organize/boost.mk
BOOST_INC_DIR = /usr/local/include/boost-1_37
BOOST_LIBS = /usr/local/lib/libboost_system-gcc43-mt-1_37.a \
             /usr/local/lib/libboost_filesystem-gcc43-mt-1_37.a \
             /usr/local/lib/libboost_regex-gcc43-mt-1_37.a \
             /usr/local/lib/libboost_program_options-gcc43-mt-1_37.a
```
