#834: Added Pentax lens PENTAX-DA 35mm F2.4 AL

Revision 2958 - 27 Dec 2012 09:53 - Robin Mills

Issue: #834. Thanks Jaroslav and Pascal for the discovery/patches/solution.

History

#1 - 31 Aug 2012 01:56 - Andreas Huggel

- Category set to *exif*
- Status changed from *New* to *Assigned*
- Assignee set to *Andreas Huggel*

Thanks for the lens info, Guillaume, I've added it. However, compared with the Exiftool list of Pentax lenses, we're still lacking many, plus there is now a need for additional logic to identify lenses with the same id. So there is quite a bit more work to do in this area. I'll leave this issue assigned to me for this.

#2 - 24 Jul 2013 16:02 - Robin Mills

- Target version set to *0.25*

Deferred to 0.25.

#3 - 03 Jun 2015 01:54 - Alan Pater

- Category changed from *exif* to *lens*
- Target version changed from *0.25* to *0.26*
- % Done changed from *0* to *20*

#4 - 08 May 2016 10:33 - Robin Mills

- Status changed from *Assigned* to *Closed*
- Assignee changed from *Andreas Huggel* to *Robin Mills*
- % Done changed from *20* to *100*

- Estimated time set to 3.00

I'm going to close this for the following reasons:

- 1 The code has been submitted
- 2 I've added a new feature #1034 which reads the lens name from ~/.exiv2
- 3 I'm going to add a web service which can be optionally called by exiv2
