Thanks, Thomas.

I located a copy of the document here: <http://www.kodak.com/global/plugins/acrobat/en/service/digCam/exifStandard2.pdf> This is very strange, the domain exif.org appears to have disappeared. Maybe it will return and the URL will be valid again.

I'll assign Andreas and Shawn to deal with this and it'll get attention when the webpages are updated for v0.25 in November.

Added the file locally and adjusted the link. Thanks for pointing it out Thomas.
