Description

Thomas, can you please review this, discuss it with Mario and give me your assessment. And of course if you have a patch, please attach it to this issue. As Mario has been kind enough to provide a test file, we should also consider updating the test suite to take advantage of that file.

Yes, patch works as expected. I could not apply the provided Exif.Image.PageNumber.patch but needed to manually patch it. New patch T1044.patch should hopefully work.

Thank you, Mario and Robin!

Back to Robin for the optional test case. I have no idea how to do it since I do not run the test suite.

Mario

Is there any reason why we cannot copy your test file into our test suite (for example copyright). If you're OK with this, I'll add your file to the test suite tomorrow as a regression detector.

#6 - 25 Mar 2015 08:02 - Mario Emmenlauer

Dear Robin and all, yes I agree, please use the file I sent in your test collection and anywhere else in development where you see fit! No copyright restrictions apply (as long as the predominant use is to aid in your development).

Thanks again and all the best!
