

Exiv2 - Patch #1197

Add support for Sigma 150-500 on Canon with 1.4X TC

19 Jul 2016 23:12 - Steve Fosdick

Status:	Closed	Start date:	19 Jul 2016
Priority:	Normal	Due date:	09 Aug 2016
Assignee:	Niels Kristian Bech Jensen	% Done:	100%
Category:	metadata	Estimated time:	1.00 hour
Target version:	0.26		
Description			
<p>The Sigma 150-500mm f/5-6.3 APO DG OS HSM lens is recognised on Canon both solo and with a 2x teleconverter but not with the 1.4x TC. In the +1.4x TC configuration it uses lens ID 172 and this patch adds the necessary table entries.</p> <p>I do not have either of the Canon EF 400mm f/5.6L or the Sigma 150-600mm f/5-6.3 DG OS HSM S so I cannot test if these are still correctly recognised after this patch, only that the Sigma 150-500mm f/5-6.3 APO DG OS HSM + 1.4x is.</p>

Revision 4356 - 09 Aug 2016 02:44 - Niels Kristian Bech Jensen

Issue #1197: Add support for Sigma 150-500mm on Canon with 1.4x TC.

History

#1 - 25 Jul 2016 11:56 - Robin Mills

- Target version changed from 0.26 to 0.28

I'm deferring this for v0.27 as I don't have time to deal with this at the moment. There's a GSoC project #992 scheduled for v0.27 in 2017 which will include this issue.

#2 - 09 Aug 2016 03:19 - Niels Kristian Bech Jensen

- Due date set to 09 Aug 2016

- Category changed from lens to metadata

- Status changed from New to Resolved

- Assignee set to Niels Kristian Bech Jensen

- Target version changed from 0.28 to 0.26

- % Done changed from 0 to 100

Thank you for the patch. It is quite small and does not break anything, so I have committed it for version 0.26.

Best regards,

Niels Kristian Bech Jensen

#3 - 09 Aug 2016 22:04 - Robin Mills

- Status changed from Resolved to Closed

- Estimated time set to 1.00
