

Exiv2 - Feature #608

list of supported formats

24 Jan 2009 07:40 - Vladimir Nadvornik

Status:	Closed	Start date:	24 Jan 2009
Priority:	Normal	Due date:	
Assignee:	Robin Mills	% Done:	100%
Category:	withdrawn	Estimated time:	1.00 hour
Target version:	0.26		
Description			
It should be possible to get a list of supported formats, preferably with mime type and default extension. (supported metadata can be fetched by ImageFactory::checkMode but I did not find any way to get the type range or anything similar)

Hi Vladimir,

What do you mean by "type range"?

Andreas

#2 - 24 Jan 2009 09:27 - Vladimir Nadvornik

range for the "type" parameter when I want to call ImageFactory::checkMode for all formats in a loop

#3 - 28 Jan 2009 22:19 - Andreas Huggel

Ugly workaround: Call ImageFactory::checkMode with type values from 1 and incremented by 1 until it throws an Exiv2::Error (13). If PNG support is disabled, skip type 6.

#4 - 23 Aug 2015 12:57 - Robin Mills

- Target version set to 53

I'm going to mark this for review. Andreas has provide a workaround.

I'm going to link this to [#1061](#) which is an overhaul of the Man pages.

#5 - 28 Mar 2016 17:59 - Robin Mills

- Status changed from New to Assigned

- Assignee set to Robin Mills

This issue has been in the database for 7 years and nobody else has requested progress with this matter. So, unless you engage to persuade me to keep this matter alive, it will be closed on April 30 as "no longer needed/wanted".
