Hi,			
The mentioned lens is currently not supported yet. The shown lens is 85 1.2 which would be nice to own but is not correct. How can I submit information required?

BTW, the Tamron 17-50 2.8 VC gives this:

```
Exif.CanonCs.LensType      Short   1  37
Exif.CanonCs.Lens          Short   3  17.0 - 50.0 mm
```

I've updated the lens table with data from exiftool, but this lens doesn't seem to be there. Can you pls add a sample image?

Thanks! This is what I get now: **Tamron SP AF 17-50mm f/2.8 XR Di II VC LD Aspherical [IF]**, assuming it is [this lens](#). Is that correct? (See also [#734](#))

#8 - 16 Oct 2010 03:43 - Steffen bla

Yes, this is correct!

#9 - 16 Oct 2010 03:50 - Andreas Huggel

Ok, then that's done too. Thanks for reporting these!
