Neils

I appreciate very much you providing these updates for exiv2. Can I ask you to create patch files with the command `svn diff > foo.patch`. I think you're sending me diff files which I can probably manually convert into a patch. However to avoid errors, I much prefer to use the tools "as is" without manual intervention.

```
502 rmills@rmills-laptop:/c/gnu.test/exiv2 $ svn patch ~/Downloads/exiv2_olympus_lenses.diff
Skipped missing target: 'exiv2/src/olympusmn.cpp'
Summary of conflicts:

- File *exiv2_olympus_lenses.patch* added

Here is the same patch made with svn. You make me feel quite old using the true and tested methods. ;-)

Regards,
Niels Kristian

#4 - 13 Jan 2013 21:08 - Robin Mills

Thanks, Neils - much appreciated. Yup, I forgot about the patch utility. Too much svn kills the brain. I'm making you feel old? I'm old. I'll be 62 on Friday. It's not all bad, I start getting a senior discount on the bus.

Thanks for this contribution. I wonder if I can get a script together to collect wisdom from exiftool to update exiv2. Ummm. We'll see.

Robin

#5 - 13 Jan 2013 21:30 - Niels Kristian Bech Jensen

I think it will be quite difficult to write and maintain a script to extract data from ExifTool since each camera manufacturer encodes makernote data in different formats.

Regards,
Niels Kristian

#6 - 15 Jan 2013 19:46 - Robin Mills

- Status changed from *Assigned* to *Resolved*

#7 - 24 Jul 2013 15:14 - Robin Mills

- Status changed from *Resolved* to *Closed*

Fixed in 0.24.
