Hi Roman.

Thanks for the patch. I have committed it to the svn trunk.

Follow up: looks like this regressed something:

```
$ exiv2 DSC_1985.NEF
... some normal output ...
Subject distance: Exiv2 exception in print action for file DSC_1985.NEF:
Invalid tag name or ifdId `FocusDistanceLower', ifdId 22
$
```

DSC_1985.NEF is not mine, so i can not upload it, but i believe it will reproduce with any file.
