

Exiv2 - Bug #1103

exiv2.hpp:55:24: fatal error: pngimage.hpp: No such file or directory

09 Aug 2015 14:29 - Jakub Wilk

Status:	Closed	Start date:	09 Aug 2015
Priority:	Normal	Due date:	
Assignee:	Robin Mills	% Done:	100%
Category:	build	Estimated time:	1.00 hour
Target version:	0.26		
Description			
I built Exiv2 with PNG support disabled (--without-zlib). But now I can't include the exiv2/exiv2.hpp header, because it references pngimage.hpp, which doesn't exist:			
<pre>/usr/local/include/exiv2/exiv2.hpp:55:24: fatal error: pngimage.hpp: No such file or directory #include "pngimage.hpp" ^</pre>

Revision 3888 - 20 Aug 2015 19:32 - Robin Mills

Fix #1103.

History

#1 - 09 Aug 2015 21:10 - Robin Mills

I've never built exiv2 without zlib (nor without expat). Can you add a guard around that:

```
#ifdef EXV_HAVE_LIBZ
#include "pngimage.hpp"
#endif
```

#2 - 10 Aug 2015 10:56 - Jakub Wilk

Thanks, #ifdef EXV_HAVE_LIBZ fixes it for me.
