Thanks for doing this, Alan. I'm going to mark this "closed" because it makes the status on the "News" page look even better.

We've closed 150 issues for 0.26! For v0.27 I'm going to track our issue/forum turn-around time. It's hours (not days, weeks, months or years).

Redmine says we're 85% complete. My script says we are 95% Feature complete and I have 51 hours remaining. We're on track for v0.26 at the end of June.

Alison and I have 3 weeks left on our house remodel. Stairs go in next week, kitchen the week after. W/B July 4 adds appliances, counter-tops, floor and carpets. Party for Alison's 65th on Sunday 10 July.
