

Exiv2 - Feature #814

Add support for Leica Makernotes (was: include proper exif data for Leica M9)

27 Feb 2012 06:55 - Eildert Groeneveld

Status:	New	Start date:	27 Feb 2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	makernote	Estimated time:	0.00 hour
Target version:	1.0		
Description			
Apparently, Leica does not use the LensName tag but instead:			
exiftool L9997545.DNG grep -i lens			
Lens Type : Summicron-M 35mm f/2 (IV)			
Lens ID : Summicron-M 35mm f/2 (IV)			
Further, the actual aperture is also empty, however, this does not come as a surprise, as on the Leica M9 this is only an estimated value, because of which Leica chose not write this to EXIF but rather store it in the maker notes.			

History

#1 - 27 Feb 2012 23:37 - Andreas Huggel

- File L9997320.JPG added

#2 - 28 Feb 2012 01:02 - Andreas Huggel

- Subject changed from include proper exif data for Leica M9 to Add support for Leica Makernotes (was: include proper exif data for Leica M9)

Exiv2 doesn't recognize this Makernote format. So this is a request to support the Leica Makernote.

#3 - 23 Aug 2015 16:20 - Robin Mills

- Target version set to 53

#4 - 07 Sep 2015 00:18 - Alan Pater

- Category changed from exif to makernote

- Target version changed from 53 to 0.26

Confirmed with exiv2 0.25. No Leica makernotes are recognized.

#5 - 08 Sep 2015 17:44 - Robin Mills

- Target version changed from 0.26 to 1.0

Target changes to version 1.0. Support a new type of Makernote is a considerable undertaking can't be undertaken for v0.26.
