

## Exiv2 - Bug #838

### Regression: Visibility support disabled on Linux, when it should be enabled

20 Aug 2012 08:05 - Andreas Huggel

<b>Status:</b>	Closed	<b>Start date:</b>	20 Aug 2012
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Category:</b>	build	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	0.24		

#### Description

On my trusted Debian system, the usual make config; ./configure --disable-shared reports

...

```
checking whether to enable dependency tracking... yes
checking whether to enable symbol visibility support...
checking whether to use the lens database for Nikon lens names... yes
```

...

-----  
-- Exiv2 0.23 feature configuration summary

--

```
-- Build a shared library..... NO
-- Use symbol visibility support.. NO
```

...

Visibility support is disabled, when it should - and used to be - on.

config.log is attached, it looks like the test for visibility support has no result (used to be 'yes', see e.g., gsoc2012 branch, which still works fine).

#### Associated revisions

##### Revision 2859 - 25 Aug 2012 19:51 - Robin Mills

Fix for #838. Please see issue for my comments. Please close #838 if you agree it's fixed. If #838 is still broken, please push issue back to me.

#### History

##### #1 - 25 Aug 2012 19:59 - Robin Mills

Andreas:

Fix submitted: SVN:2859.

Apologies for this. I had a typo in the spelling of visibility which turned it off on all platforms, when I only intended cygwin and mingw.

I've fixed the typos, however I'm not convinced that I have this right. If it's not fixed, can you revert to your original code in SVN:2685 I only submitted SVN:2776 for my convenience.

##### #2 - 25 Aug 2012 20:11 - Robin Mills

- Assignee changed from Robin Mills to Andreas Huggel

##### #3 - 27 Aug 2012 23:32 - Andreas Huggel

- Status changed from Assigned to Resolved

- Assignee deleted (Andreas Huggel)

Looks good, thanks!

##### #4 - 24 Jul 2013 15:26 - Robin Mills

- Status changed from Resolved to Closed

- Assignee set to Andreas Huggel

Fixed in 0.24.
