I decided to buy this lens for my Nikon D5300 and indeed, I can confirm that it was detected correctly by exiv2 (built from trunk [r3508](#)).

I bought the lens in Tenerife where there is only 7% VAT (instead of 20% in the UK). It cost €299. I was planning to buy it mail order/tax free from B&H in NYC for \$349. This was a better deal and I have it today to use in Tenerife.
