Description			
If a Tamron lens model name includes "USD", it must not include "AF". However, at least in nikonmn.cpp and canonmn.cpp, I found this in one model name each. I have not looked at other files.			

Associated revisions

Revision 3226 - 31 Dec 2013 23:17 - Niels Kristian Bech Jensen

Fix issues #942 and #943: Lens name consistency fixes. Thanks to Torsten Bronger for the reports.

Hi Torsten.

Thanks for the report. I have fixed it in the svn trunk. I also removed VC from the Sony/Minolta mount version of the lens since it does not have VC. Those cameras have in-camera vibration reduction.

Best regards,
Niels Kristian Bech Jensen
